

OPPOSITE PAGE | The great room offers lots of clever storage solutions to help the family keep everything organized. The leather ottoman is a durable choice, and the lid lifts to store games and blankets. A tray provides a hard surface for drinks. The built-in wall storage incorporates both drawers and doors, so everything has its place.

ABOVE | The dining room has a mix of sophisticated design details. Dining chairs button up the back for a tailored touch, and a richly-textured Venetian plaster finish with clear beads embedded in the surface was hand-applied to the walls by a local artisan. Subtle sequined tape on the window panels and crystals on the chandelier add extra sparkle.
