

RUBY REDS

These rich red tones exude warmth and glamour and are known to stimulate the senses, encourage conversations, and even increase the appetite.

FAR LEFT | Imola's *Bubble Collection* is a grouping of plain tiles that can be arranged with round, textured tiles for a custom look. This bathroom install is another example of how jewel tones and mixed metals complement each other wonderfully, with glossy red tiles creating a lustrous backdrop for the bold accents of gold found in the 'bubble-wrap' inspired textured tiles. **Beaver Tile and Stone**, Suite 101.

LEFT | The *Penelope Table Lamp* by Alexa Hampton dazzles with a curvy ceramic frame, bright ruby finish, and a warm gold base. **City Lights Detroit**, Suite 98.

The *Absolu Sofa* by Francesco Binfaré for Edra shown here in a rich, dark red velvet. **The Gallery of Luxury**, Suite 33.

Make a grand statement with *Persephone*, a dramatic faux silk damask from Pindler's *Exclusive Hearst Castle Collection*. The multipurpose design was inspired by 16th century Florentine chairs that are located in the hallway lobby leading to the sitting room of the historic California estate. **Pindler**, Suite 103.
