

MICHIGAN DESIGN CENTER THE GUIDE

Your key to shopping MDC

Photo: Tennant & Associates

HELLO! WE'RE GLAD YOU'RE HERE.

Welcome to Michigan Design Center! We are home to nearly 40 independently owned showrooms and studios that represent the best and finest selection of design-related goods in the region. You will find furniture, fabrics, wall coverings, lighting, tile, flooring, art, accessories, and more. In addition to their fine selection of furnishings, our showrooms have the experts who can guide and inform clients as they make their selections, and they can help create custom, one-of-a-kind pieces that reflect their clients' unique, personal style.

Our showrooms continually add new styles and selections, so visit michigandesign.com to see the most up-to-date listing of manufacturers and the products they offer.

WE ARE DIFFERENT, BY DESIGN

MDC is a wonderful place for anyone who appreciates fine design, innovative products, and expert design advice. Whether you are building a new home or improving your current one, we are a one-stop resource where you can see, touch, and try the best of the best without ever leaving the building.

As the thriving center of the design community, we offer educational seminars and we support many charitable events throughout the year.

SHOPPING OUR SHOWROOMS

Since we opened in 1977, MDC has been the top resource in the region for the professional design trades. Tucked away on a quiet side street, access was strictly limited to the trade. As the industry began to evolve about 15 years ago, consumers were invited to visit MDC to peruse our beautiful showrooms on their own. Today, while all our showrooms are open for browsing, due to the custom nature of the products offered in our showrooms, some showrooms continue to require that purchases be made through a design professional to help ensure the items selected will meet or exceed your expectations.

WHY SHOULD YOU HIRE A DESIGN PROFESSIONAL?

We believe professional designers provide invaluable expertise that will elevate your project and help make your space more functional and more pulled-together than you could have imagined. Designers have the training and expertise that allows them to discover what **YOU** really need and want from your space, and then they help you make it all happen with the least amount of fuss and bother possible. It can seem a little like magic, but it is actually hard work that requires a lot of technical knowledge and a thorough understanding of the dizzying number of resources available to you.

In fact, we believe professional designers are so vital that we will immediately help you find the right designer for you and your project.

HOW CAN YOU FIND ONE?

MDC is home to a number of talented independent design professionals. They are listed here in *The Guide*, and they would be delighted to meet with you to discuss your project. Stop by their studios or call for an appointment!

Need some direction first? Call **248.649.4772** to discuss your project with us and get a personal referral, or visit michigandesign.com to see bios and portfolios from nearly 50 talented design professionals.

If you would prefer to shop our showrooms on your own, you are welcome to browse through and see all that we have to offer! Please remember, though, that some of our showrooms require that all purchases be made by a registered design professional. Our showrooms are happy to help you facilitate your purchase through a design professional, or we can provide you with a referral.

HOW DO PROFESSIONAL DESIGNERS WORK?

Every project is different, and every design professional sets their own fees, but you'll find that design professionals strive to be transparent about their fee structure. Whether they are compensated hourly, by the project, or a combination of both, you should absolutely ask about the designer's fee structure during your initial conversation.
