

Designed for the couple's four sons, this guest bathroom adjacent to a future bunkroom has a masculine design with rich wood tones and peacock blues.

BUNKROOM BATHROOM

“The starting points for this bathroom were the trough sink—which is really practical—and the hanging bulb light fixture,” Kapadia explains. “Durability was also a concern. We ran the tile above the mirror to extend the backsplash.” A wise design feature as this guest bathroom, located adjacent to a future bunkroom, will serve the couple's four sons.

AVAILABLE AT MDC: Beaver Tile and Stone shower floor tile, **Lighting Resource Studio** vanity.
