

The gorgeous Alger guest room in the spirit of the original Show House room.

WHERE IT ALL BEGAN

Inspired by Loperfido's 2022 JLD twin bedroom, the homeowner asked the designer to reinterpret the twin bed guest room for grandchildren and adults alike. The design reflects the spirit of the original Show House room with soft green hues and botanical themes. She elevated the space with custom scalloped headboards, clever transparent trunks with color-coordinating books, and plush seating.

When asked which room was her favorite, Mrs. Alger said, "I love my primary bedroom and the green guest bedroom. The primary bedroom does an excellent job of mixing masculine and feminine, and the guest room is similar to the Show House room I asked Paige to replicate; the green is so calming, and you can tell I love birds."

AVAILABLE AT MDC: Schumacher bed frame fabric; Kravet/Lee Jofa/Brunschwig & Fils wallpaper; Rozmallin drapery fabric; CAI Design lighting.
