CAI Designs, Suite 82

Everyone will find their favorite spot in this room, with designated areas for dining and games, as well as a cozy nook for cocktails and conversation featuring low-profile seating. The space will be filled with wood and organic artifacts, complemented by light fabrics that embody a true South African style home. In keeping with Textures Design's signature look, the designer drew inspiration from nature to seamlessly bring the outdoors inside, creating a tranquil yet vibrant atmosphere—the perfect setting for a lekka jol!
