

The powder room mirrors design elements found throughout the home.

Powder Room BEFORE

COMMON THEME

Yellen completely renovated the powder room, replacing everything to maintain harmony with the foyer and overall balance of the home. “This space aligns with the traditional checkerboard marble flooring, modern plumbing, and light fixtures,” she explains. Thoughtful details extend to the little ones as well—a sleek Lucite step stool sits at the base of the sink. “I strive to make everything both functional and beautiful,” she adds.
