

MICHIGAN DESIGN CENTER HOME TOUR

DESIGNERS' OWN HOMES VIDEO PRESENTATION

Cheryl Nastro's Transitional Lake House

Northville, Michigan

Overlooking a peaceful private lake, this 5200-square foot home is timeless and sophisticated with classic design elements on display from the moment you first step foot in the foyer. The kitchen is the largest area on the first floor, and it took Cheryl and her husband over a year to fine-tune. This functional space was completed in 2012, but it still feels fresh and new with white cabinets, custom hood set into the soffit, and floor-to-ceiling bay windows that open to a balcony. A double-sided fireplace separates the space from the adjacent great room creating a tranquil sitting area where the couple starts and ends each day. The duo decided they wanted to add more living space in their lower-level walk-out, which was nearing completion at the time of filming this tour.

They entertain often, and this stylish new addition provides the ideal open space with several gathering areas for family and friends to relax and be comfortable while enjoying the lakefront setting just steps away.
